

Edition 4, August 2018

The PULSE E-learning course is ready for use! Available on the project website pulse-project.eu!

After almost two years of dedicated work the nine partners of the Pulse project from France, Bulgaria, Italy, The Netherlands, Romania and Spain, are proud to present the innovative self-learning material for foreign nurses that was produced over this period.

The final product is an E-learning course in French/Italian/Dutch (CEFR B) and is based on real working situations of nurses. The scenarios are: first day at work, patient admission, care for the patient and daily guidance, diet and medicines, maintaining relations with colleagues, patient discharge, home care.

Self-directed online learning options featuring audio, video and e-learning activities allow independent practice hours. The contents and materials assist nurses to interact confidently with patients, their families and healthcare colleagues in the occupational context. Each course is supported by hints and explanations in Bulgarian, Romanian and Spanish.
